

## Go iLawn

### There's an all new Go iLawn.

This year, we have something a bit different to show you: a Completely NEW Go iLawn!

Since 2009, Go iLawn has been your "Go-To" tool to Measure more properties, Bid more jobs, and Win more sales. And in the 8 years since we launched Go iLawn, we've heard lots of feedback about what our customers want. So in 2017, here's our answer.

Our new Go iLawn software has everything you love about Go iLawn, plus:

- A modern, updated "look and feel!"
- Comprehensive support for all your devices (Desktop & Mobile).
- Cloud-based storage to access your work from anywhere.
- Repeat access to your project files.

So come see us at GIE+EXPO. We'll be displaying on the show floor October 18-20. Look for Go iLawn in Booth #9055 (in the Snow and Ice Pavilion), and try our new software for yourself.

Or visit our website to learn more.

## GPS Insight

GPS Insight understands that every landscaping fleet faces its own challenges and has unique goals set in place. The difference with GPS Insight is that we provide tailored GPS tracking and E-Log solutions and award-winning customer service to ensure your challenges are overcome and your goals are met. Customers work with us to reduce costs, reduce risk and increase revenue. Visit booth #577 or our website at [www.gpsinsight.com](http://www.gpsinsight.com)

“We initially got into GPS Insight just for the maintenance aspect of it and then learned daily of the tracking, the scheduling, almost everything that you can think of to help a service business with employees in company vehicles. GPS Insight is saving us across the board: time and money.

—NOLAN B., OWNER, TEXAS TURF MANAGEMENT  
 HOUSTON, TX

“GPS Insight is by far the best we came across when testing the solutions against one another.”

—BLAKE L., ASSET MANAGER, SINGING HILLS LANDSCAPE  
 AURORA, CO
