

Quali-Pro

Fahrenheit™ is a selective herbicide that controls a broad spectrum of grassy and broadleaf weeds in labeled warm-season turfgrasses. Fahrenheit combines Metsulfuron-Methyl and a dicamba in an easy-to-use, water-soluble granule formulation. When temperatures are above 50 degrees, apply Fahrenheit herbicide in spring, summer or fall months. Visible results are seen with Fahrenheit in 7-10 days.

Fahrenheit Herbicide Benefits

Profitable: A little goes a long way. The low cost of the Dicamba + Sulfonylurea (SU) herbicide formulation improves your bottom line.

Simple: One bottle treats one acre. No more complicated dilution ratios.

Flexible: Fahrenheit produces results in temperatures as low as 50 degrees.

Effective: Faster visible activity in just 7-10 days that reduces callbacks.

How Fahrenheit Works

CSI utilizes Combination Chemistry® to create another innovative product that attacks weeds with multiple modes of action. Metsulfuron-Methyl is an ALS inhibitor, which is responsible for the synthesis of essential amino acids needed for plant growth. Dicamba is a synthetic auxin; it mimics the natural plant hormone causing rapid abnormal cell growth blocking phloem vascular tissue.

Worldlawn

The Worldlawn Diamondback blends the rugged durability and power of a commercial unit, with the size and affordability of a residential mower. The Diamond back is available in 48", 52" and 60" deck options and is powered by either a Kawasaki or Briggs & Stratton 3400 engine. With the ability to discharge, mulch or collect, and a variety of extra features depending on your model, the Worldlawn Diamondback will cut your time and costs in half.

“Diamondback XL; hands down the best mower on the market today. Built like a main battle tank. This company is poised to take the market by storm!”

—NICHOLAS KNUTH

“My business has just started running Worldlawn and love the mower. Great cut!! Will most likely be switching from Dixie chopper to all Worldlawn.”

—JEFF BUCKNER

“I researched every brand of mower that can be thought of and Worldlawn was the absolute top choice! To even come close to the combination of power and ruggedness a person would have to spend almost twice the price!”

—STEVE THATCHER
